github.com/molka2005

Summary

Motivated Computer Science student specializing in Big Data, with strong skills in Python and modern web technologies. Passionate about AI and data-driven applications, with hands-on experience in building web platforms, mobile apps, and data analysis systems. Quick learner, highly adaptable, and eager to contribute to innovative tech projects.

Education

Licence in Computer Science (Big Data)

September 2024 – Present, Sfax, Tunisia

Higher Institute of Computer Science and Multimedia of Sfax

High School Diploma (Mathematics)

September 2023 – June 2024, Sfax, Tunisia

High School 9 April 1988

Projects

VELVET – DevOps E-commerce Platform

- Frontend Development: Built responsive e-commerce interface with HTML5, CSS3, vanilla JS – smooth multi-page navigation
- Containerization: Dockerized the static application for reproducible local deployments
- Automation: Wrote Bash scripts for service monitoring and automated container recovery

HealthMate – Connected Mobile Health Application

- Developed core Android features including nutritional tracking, online medical consultation, and a community chat space using Java, XML, and Android Studio.
- Designed and integrated an intelligent health chatbot to assist users with quick and personalized guidance.
- Collaborated in a team using Git/GitHub for branch management, code reviews, and technical documentation.

DataClima – Climate Data Analysis Web Platform

- Developed a collaborative web platform for climate data analysis using React (Vite) and Node.js/Express. Implemented CSV/Excel import (PapaParse, SheetJS), data visualizations (Recharts), and interactive maps (Leaflet). Enabled PDF export (html2canvas, jsPDF) and implemented JWT authentication with MongoDB.
- Led the team as Scrum Master by facilitating Scrum ceremonies, coordinating collaborative workflows, prioritizing tasks, and ensuring sprint tracking and delivery alignment through Jira.

Skills

Technical Skills: Languages: Python, Java, JavaScript — Web: HTML, CSS, React

Data & Databases: MySQL, Spark

Tools & DevOps: Docker, Git/GitHub, Linux

Soft Skills: Team collaboration, problem-solving, rigor, adaptability in fast-paced environments

Professional Experience

Freelance – AI Model Testing & Technical Support

June 2025 – September 2025, Sfax, Tunisia

Anavid

- Tested and evaluated the performance of AI models to ensure accuracy, reliability, and compliance with project requirements.
- Participated in the optimization and enhancement of websites, collaborating on bug fixes and feature improvements.

Technical Training

DevOps Bootcamp – TechWorld with Nana

January 2026 – Present, Sfax, Tunisia

Intensive hands-on training in CI/CD automation (Jenkins), cloud infrastructure provisioning (AWS, DigitalOcean, Linode), and version control workflows with Git.

Certifications

NVIDIA Deep Learning Fundamentals – NVIDIA

February 2026, Sfax, Tunisia

Introduction to deep learning fundamentals and NVIDIA GPU tools.
